BODY WEIGHT GAIN

VISCERAL FAT

FECAL LIPID EXCRETION

Sea Buckthorn leaf has anti-visceral obesity and antioxidant effects mediated by the regulation of lipid and antioxidant metabolism. It may prevent hepatic damage by enhancing the antioxidant defenses system and attenuation microsomal CYP2E1 induction.

MAIN INGREDIENTS

PLANT CHITOSAN SUPERIOR FAT BINDER

Chitosan is a deacetylated derivative of chitin, mainly isolated from waste shells of the phylum Arthropoda after their consumption as food. Chitosan is a naturally occurring compound that can be obtained from deacetylated chitin, which is obtained from various sources such as fungi, crustaceans, and insects.
